Objective:

Eager and diligent tech professional with strong skills in ReactJS, NodeJS, and continuous learning. Looking to start my career in tech to better my life and achieve my goals

Education:

- Eleven Fifty Academy, Web Development Immersive Learning Program, Indianapolis, IN, July 2021
 - 12-week immersive learning program for Web Development taught with industry-guided curriculum, real-world project-based learning, and 500+ hours of logged coding time and training

Competencies & Functional Skills:

Problem solving, troubleshooting, visual communication, customer service, critical observation and thinking, organization, Agile methodology, portfolio development, addressing and resolving business challenges, and 200+ hours of coding practice through freecodecamp.org

Technical Skills:

Languages/Libraries:	JavaScript, NodeJs, React, Express, JWT, Bcrypt
Cloud Technologies:	Heroku, Firebase, GitHub
CI/CD:	Agile, Scrum, Git
Databases/ORM:	PostgreSQL, Sequelize
Web Technologies:	HTML, CSS, APIs, Responsive Web Design
Styling Libraries:	Bootstrap, reactstrap

Technical Projects:

- **PokeAPI Randomizer Application**
 - Utilized HTML 5, CSS 3, and JavaScript to send a request to an API and display those results. I built a randomizer for pokemon that on a button push randomly displays 4 pokemon.
- **Live Cryptocurrency lookup**
 - Utilized HTML 5, CSS 3, Bootstrap 4, and JavaScript to send a request to a secure API and display our response. I built a crypto lookup where you enter any stock tickers for

the requested crypto and it will display it's current rate in USD. Then deployed with Firebase. <https://hunter-api-project-2.web.app/>

- **Video Game Review Site**
 - Utilized ReactJS, CSS, Bootstrap, and JavaScript to create both a server & client side of a React application that utilized CRUD then we deployed both our server and client side with Heroku. <https://boolean-bandits-reviews-client.herokuapp.com/>
